REDUCE PEST DAMAGE
IN YARD, GARDEN

Pest control in the garden and yard should begin early. In fact: now.

S. B. Fenne, plant pathologist at VPI, says homeowners can avoid a lot of trouble if they remove the overwintering stages of diseases and insects in early spring. He has some specific suggestions.

Prune dead, diseased, and excess branches from shade trees, fruit trees, and shrubs. They may harbor overwintering stages of diseases and insects. Pruning dead or dying parts of plants now not only will safeguard against pest trouble, but will also open up the plants so they can be sprayed more easily. Take prunings a safe distance and burn completely.

To prevent heart rots, dress wounds with commercial wound paints. Pull up and burn dead or diseased plants. Rake up leaves and other debris and remove from the immediate area of ornamentals and shade trees. Remove or turn into the soil the remains of annual plants.

Health and Beauty

It is not a simple thing to find your most desirable weight. There are so many points to consider. Your age, bone structure, height, size of your bones, and your personal taste.

We know we are in better all-round good health if we stay on the slim side. If you have small bones, you have probably found how out of line prepared weight charts can be.

The only practical way to attain a pretty weight and stay there is to control your diet. If you eat one chocolate nut bar a day over your needs, you will put on a pound in little more than a week.

Get your family doctor to help you decide on your correct weight and to plan a diet for you to enable you to reach your goal. Next you will want a diet to enable you to keep your proper weight.

Exercise is very important. The right kind of exercise will keep your figure youthful and help keep you in good health generally. However, you should know that it is difficult to exercise enough to decrease your weight. It is estimated that a need to walk 36 miles to pound. It is easier to regard for your figure.

Soon we hitched up at a "truck stop" in the Farmville area, and I told the waitress: "Sister, give me a jumbo size glass of orange juice, and then stand by and don't waste that ice refill it four times with water!" Ah, yes, first chance I get, I am heading back to the same spot, and I will find some more relics for my "Museum." Betcha.

Sometimes those of us who glory in our strength and righteousness find ourselves intolerant of one who seeks, at long last, to find forgiveness and salvation at the foot of the Cross. The words of the Master surely should make us rejoice to help a weaker brother.
